Education

Future Institute of Engineering and Management <i>Bachelor of Technology in Computer Science and Engineering</i>	Sonarpur, Kolkata <i>Aug. 2026 – Present</i>
Rohini C.R.D High School <i>Science</i>	Rohini, Jhargram <i>Aug. 2018 – Feb 2026</i>

Technical Experience

Student Developer — Self-Directed Projects <i>Future Institute of Engineering and Management</i>	Aug 2026 – Present <i>Sonarpur, Kolkata</i>
- Designed, developed and deployed web applications to strengthen practical software-development skills. - Worked with HTML, CSS, JavaScript, React and TypeScript to build responsive user interfaces. - Used Git and GitHub for source control, project management and maintaining development history. - Built applications with a focus on responsive design, usability, client-side processing and offline functionality. - Practiced modern frontend development	

Projects

Calcx – Pro Calculator <i>React, TypeScript, Vite, Tailwind CSS, PostgreSQL, Docker</i>	Sep 2026 – Sep 2026
- Built a responsive calculator supporting standard and scientific mathematical operations. - Implemented calculation history, memory functions, keyboard controls and CSV export. - Developed a client-side calculation engine without server dependencies. - Added PWA/offline functionality, theme settings and responsive layouts for desktop and mobile devices.	
WiFi QR Generator <i>HTML, CSS, JavaScript, Vite</i>	Sep 2026 – Sep 2026
- Developed a browser-based tool that generates Wi-Fi configuration QR codes from network credentials. - Implemented 100% client-side QR generation, allowing credentials to remain in browser memory. - Added real-time QR updates, input validation, responsive design and a printable Wi-Fi QR card. - Designed an offline-capable interface using modern CSS, JavaScript modules and Vite.	

Technical Skills

Languages: C, C++, Python, JavaScript, TypeScript, HTML5, CSS3
Frontend: React, Tailwind CSS, Responsive Web Design
Developer Tools: Git, GitHub, Docker, Google Cloud Platform, VS Code, Antigravity
